# Agenda Today

- Introduction: Why are we here?
- Individual brainstorm: the ideal food shelf system
- Table Talk: Top 3 qualities
- View and Vote
- Small groups: Moving toward action
- Large group wrap-up

# Why Food Shelves?

- Health depends on healthy food
- Food insecure populations at risk for poor health
- Emergency food system not built to provide healthy food
- Food shelves are essential

WE can do it differently

WE can do it better

WE need to partner

# Shared Values

- **GOOD FOOD:** We believe reliable access to healthy, appealing and culturally appropriate food will promote overall health in our communities.
- **RESPECT FOR ALL:** We believe client-centered, welcoming, and positive approaches create dignified experiences that further equity in our communities.
- **COLLABORATIVE PARTNERSHIPS:** We believe mutual trust and fully-engaged partners build strong, connected communities working toward sustainable systems change.

# Imagine...

- You are Wonderwoman, Superman, or Optimus Prime
- There are no barriers
- You will succeed
- You are unstoppable

# You are unstoppable

# Individual Brainstorm:

Imagine you've removed all barriers and you can now build your IDEAL food shelf system. What does it look like? What qualities or values does it have?

# Table Talk

What are the top 3 qualities that your table believes every ideal food shelf should have?

- Talk through your individual brainstorm sheets
- Choose 3 qualities of an ideal food shelf system
- Write ONE quality per sheet
- Identify themes

# View and Vote

- Put your Top Quality sheets on the wall
- Read through the other table's sheets
- Use your stickers to vote for the ones you believe are the most important
  - *Yes, you may put more than one sticker on the same sheet!*

# Small Groups

- Four small groups around the room
- Talk through the barriers, solutions, and partners needed for your topic area
- Take notes and fill out your conversation sheet

# Large Group Wrap-Up

- What was surprising?
- Is there a barrier that now seems manageable?
- What are you going to do next? How will you keep working on these issues?
